CLASS B, or UNCONDITIONAL LIFE ASSURANCE, namely, Life Assurance almost without any Conditions or Restrictions, as explained herein. This Class, is however, not intended for persons residing in, or likely to proceed to, unhealthy climates, or who may be exposed to unusual hazard. The profits allocated to the Policies under this Scheme will be *Bonus Additions* to the Sums assured. The Divisions of Profit will be made every five years, the first in 1865; and the List of Policies are closed annually on 5th December.

CLASS A, or ORDINARY LIFE ASSURANCE, namely, Life Assurance with some at least of the ordinary Conditions and Restrictions in Residence and Occupation. The Association's conditions are, however, much more liberal than those of many other Offices. This scheme is to be distinguished from others, also, by the favorable mode of allocating profits *annually in cash* amongst the Policy-holders during their lives—the annual payments for the policies being thereby considerably reduced. The Lists are closed annually on 5th April.

PREFACE.

In bringing out this the Second Edition of the OTTAWA CITY AND COUNTIES OF CARLETON AND RUSSELL DIRECTORY, the Compiler begs to assure the public that no expense nor labor has been spared to render the volume, in every particular, as reliable a guide to the professional, commercial, manufacturing, and farming communities as works of such a character can possibly be made. And, although it is next to impossible to have a compilation of this nature entirely free from errors, it is to be hoped, however, the patrons of the work will, in view of the difficulties experienced in obtaining correct information from so many different sources, grant their kind indulgence and overlook such as may unwittingly appear.

The Compiler desires to present his acknowledgments to the Press of Ottawa, and to many gentlemen both in the City and Counties who have readily furnished such information as was desired, which would otherwise have involved much time and expense to procure.

To the Patrons of the work is especial gratitude due for the liberal support given the enterprise from the commencement.

OTTAWA, Sept., 1866.

OTTAWA.

Population is about 718,000 [illegible]

As the Seat of Government, Ottawa holds the proud position of the chief city of Canada, and perhaps, of British North America, yet, though that fact in itself would make it the central point of attraction, Ottawa is not entirely dependent upon its position as Capital to entitle it to rank as one of the chief cities on this continent. Commercial towns, in all countries, command and acquire a world wide celebrity, while mere manufacturing towns sink, comparatively, into insignificance; but the latter are absolutely necessary to the former, and invariably compare favorably, both for wealth and population, with them.

Cities situated at the mouths of large rivers, and on the great highway of nations, will, of necessity, become of great importance, hence, before the valley of the Ottawa was known, and when the site of the present capital was a wilderness, unknown to any but the child of the forest, Quebec, Montreal, Kingston, and other cities and towns of Canada were large and flourishing places. But since Canada was first settled, until quite recently she has depended upon the mother country and the neighboring Republic, for all her wants in manufactured goods; now, however, attention is being given to the great and varied resources of the country. Already our Canadian cloths have attracted the notice of foreign merchants. Already we are able to supply our own wants in many articles of domestic and commercial use, but still one great resource, one great means of wealth remains to be developed. That is IRON.

Our forefathers considered the possession of gold the acme of human prosperity, but in the present day we are content if we have but

a liberal supply of the baser metals, well assured that the wants of the world will prove the true philosopher's stone, and speedily transmute them into the yellow god so greedily sought after by every member of the human family. These, Ottawa possesses. Nature has supplied the valley of the Ottawa with no niggard hand. Beneath a soil, naturally fertile, is to be found unbounded stores of the most useful, and hence, of the most precious metals, the full development of which is but a question of time. The Iron Mines of Hull are already attracting attention, and will, without doubt, be soon actively worked; while the iron wealth of Renfrew has for many years been known and recognized. In 1851 the specimens of iron ore from Canada to the World's Exhibition of London, were selected by Sir Wm. Logan from surface products of the Renfrew Mines. As yet, these deposits have not been developed, but no doubt can be entertained that they will, ere long, receive the attention of, not only speculators, but of men willing to employ their capital in developing the resources of the country for their country's good. Ottawa must then become the centre of this rich and fertile district, and is destined, at no distant date, from its natural resources, to hold the position of the Birmingham or Sheffield of British America. At the same time, the vast water-power to be found on the banks of its two rivers, the Ottawa and Rideau, must offer to manufacturers facilities to be found, perhaps, in no other part of the Province. All that is wanted is increased railway communication, and that we have no reason to doubt the Ottawa and Prescott Railway Company will soon give. But it is not in iron alone that the valley of the Ottawa is rich. In lead, plumbago and other minerals it can compete with any other part of the continent; while for lumber its resources are unbounded, and its facilities for bringing that lumber to market are unequalled, perhaps, in the world. In the neighborhood of Ottawa, at Arnprior, are extensive quarries of the best marble to be found in America, in proof of which the specimens to be seen at the new Parliament Buildings need only be cited. Besides the Arnprior marble, the district of Ottawa furnishes all kinds of building stone. A black or grey limestone, which gives a fine massive appearance to buildings, and which has been extensively used in this neighborhood, is known as the Trenton limestone. A very beautiful white or

light-yellow freestone is found at Nepean; and another, white as Carrara marble, is obtained at Perth. These are the principal of the building stone found in this neighborhood, but there are many beautiful kinds of stone besides.

Since the appointment of Ottawa, by Her Majesty the Queen, as the Capital of these Provinces, it and the neighboring districts have commanded increased attention at the hands of the moneyed men of the country. The consequence is that Ottawa, during the past few years, has increased in size, wealth, population, and importance at an almost unprecedented rate, and now possesses some of the finest public and private buildings, the largest and most important manufactories, and the most extensive mills to be found in any portion of Her Majesty's dominions of British North America. The magnificent pile of buildings lately erected as Government and Departmental Buildings will always make Ottawa rank high among the cities of America in point of architectural objects of interest. But, besides these, it has many other public and private buildings of superior character, among which mention may be made of the Roman Catholic Cathedral, St. Joseph's College, the General Hospital, County Gaol, Desbarats' Block, the Convent, several churches, and the various banks.

For hotel accommodation Ottawa is well off, having several large and well appointed hotels. The Russell House, J. A. Gouin, proprietor, will vie with any house in the Province; a large and handsome addition is being made to it, and when completed the Russell House will afford accommodation for 300 guests. The Albion, Nicholas Street, John Graham, proprietor, is a first-class family hotel. Hamilton's, R. R. Hamilton, proprietor, and Mathews', T. Mathews, proprietor, are also good hotels. There are besides these many good second-class houses.

Ottawa boasts of a good theatre, at present under the able management of Mr. John Townsend, lessee.

For travelling and forwarding facilities the capital is tolerably well supplied, though such is the increase in population and general business that other and more extensive means must soon be provided. At present there are the Ottawa and Prescott Railway, which enters the city through New Edinburgh; three Passenger and Freight Lines of

Steamers, and several lines of Stages. The Ottawa River Navigation Company convey passengers and freight to Montreal by first-class steamers, handsomely appointed, viz., "Queen Victoria," Capt. A. Bowie, and the "Prince of Wales," Capt. Sheppard, and the "Consort," now nearly completed, thus forming one of the best river lines in British America.

Dickinson's Rideau Passage and Freight Line, between Ottawa and Kingston, by Rideau River and Canal, consists of two first-class steamers, the "City of Ottawa," Capt. J. Ryan, and "Bytown," Capt. Thos. Farmer, besides a fleet of eleven freight steamers and fifty barges, doing a large freight and towing business between Kingston, Ottawa, and Lake Champlain.

Montreal and Ottawa Forwarding Company do a large freight and towing business between Ottawa, Montreal, and Lake Champlain, with a fleet of seven steamers and thirty barges.

Union Forwarding and Railway Company, Upper Ottawa Route, have four first-class passenger and three freight steamers running from Aylmer to the head of navigation on the Ottawa.

Ottawa possesses Telegraphing facilities, connecting it with all points in Canada and the United States by the Montreal and Provincial Telegraph Companies.

The city now contains fourteen Churches, a College (St. Joseph,) Grammar School, three Collegiate Schools, a Commercial College, four Young Ladies' Academies, and excellent Public Schools, all under the charge of competent professors and teachers. There are several private schools all well attended.

The literary, scientific, national, benevolent, and other societies will be found classified in another part of this work.

There are four Fire Companies, two Hook and Ladder Companies, three Building Societies, several Insurance Agencies, and six Banks (branches of the Bank of Montreal, Bank of British North America, Bank of Upper Canada, Ontario Bank, Quebec Bank, and Royal Canadian Bank).

The grand feature of Ottawa, so far as manufacturing is concerned, is the limitless water-power to be found in the neighborhood. At the

falls of the Chaudière and the Rideau there are several extensive Flouring and Saw Mills, of which the following may be mentioned as the principal:

Bronsons, Weston & Co.'s Saw Mill, on Victoria Island, employs about 100 men. They have at present about 125,000 logs, of which 85,000, at least, will be made into lumber this season. Messrs. Bronsons, Weston & Co. saw on an average about 16 or 17 million feet.

Perley & Pattee have a large saw mill on Caudière Island, where they employ 90 men, and saw 12 million feet of lumber per year. Their stock of logs is 60,000.

J. R. Booth employs 45 men at his mill on Chaudière Island. Has now on hand about 60,000 logs, and saws yearly 11 million feet of lumber.

A. H. Baldwin employs, this season, 35 men, and saws 6 million feet. His mill is also on Chaudière Island. A. H. Baldwin & Co., Chaudière Island, are now erecting another mill on the Island which is intended to have a capacity of sawing 12 million feet.

J. M. Currier & Co. have an extensive mill at New Edinburgh, driven by the water of the Rideau. In connection with the mill is a Sash Factory. They employ, in all, 200 men, and turn out 11 million feet of lumber in a year.

Levi Young & Co., on Victoria Island, employ about 40 men at their saw mill, and saw about 7 million feet of lumber.

Gilmour & Co. have a large mill on the Gatineau River, about seven miles from Ottawa, where they have about 100 men at work, and annually turn out 16 million feet.

W. Taylor, on Montreal street, Le Breton's Flat, employs 20 men, and saws four million feet of lumber.

George and Robert Mason saw about one million feet per year, employing five men.

Law & Johnstone, Le Breton's Flat, have a mill driven by steam, using a forty-horse power engine; and employ 14 men. They manufacture a million feet of lumber. Shingle, lath, and planing mills are attached to the saw mill.

It will be seen that in the above mentioned ten mills, 649 men find

employment, and 86 million feet of lumber are yearly sawed, the greater part of which finds its way to the American markets. Besides the men thus employed in the mills the lumber trade of Ottawa gives employment to a great number of men who are constantly engaged in cutting and rafting logs.

Ottawa contains three iron foundries. The Victoria Foundry is situated on Middle street, Victoria Island, and is owned and carried on by N. S. Blasdell & Co.; the machinery is propelled by water power furnished by the Ottawa. This foundry has been established for many years, and contains the very best kind of machinery—some originally designed and manufactured by the proprietors. They received, in 1861, the Prince of Wales' Gold Medal for their patent planing machine, which is considered the best machine of the kind in America. They employ about twenty-five hands, and turn out steam engines, lathes, agricultural implements, saw and grist mill machinery of every description.

In connection with the Victoria Foundry, there is a very powerful force pump, requiring a force equal to eighty horses to work; this is fully supplied by the almost unlimited power afforded by the Chaudière Falls. This pump is put up in a suitable stone building in a position where, in case of fire on either side, hose can be attached, and half a dozen streams be made use of. This pump was manufactured by N. S. Blasdell & Co., of the Victoria Foundry. It has the capacity of pumping two thousand gallons per minute.

The City Foundry was established in 1848, by T. M. Blasdell. Mill machinery and agricultural implements are the chief articles manufactured.

Perkins' Foundry is situated on Sparks street, and was established in 1840, by Lyman Perkins; the machinery is propelled by two engines of twenty-five horse power: a number of hands are kept employed in the manufacturing of steam engines, boilers and mill machinery.

Ottawa contains five extensive carriage and waggon factories. Wm. Stockdale & Brother's, on Rideau street, was established in 1854: in this factory, twenty-six hands are employed, and an engine of ten horse power; carriages, waggons, sleighs, cutters, &c., are turned out,

each year, to the value of twenty thousand dollars. Peter Dufour established his carriage works in 1832; thirteen hands are kept in constant employment. The Royal Carriage Factory was established in 1840, by George Humphries, who employs fourteen men, and turns out carriages, waggons, &c., to the value of ten thousand dollars per annum. Jeremiah Evans, corner Bank and Sparks streets, employs five men. John Smith, Bank street, eight men. There are several other smaller establishments.

Axe and Edge Tool manufacturing is a branch of industry for which Ottawa has been justly famous for many years. There are two factories, turning out a large amount of all kinds of axes and edge tools, and giving employment to over forty workmen, viz.: S. Washburn, and Edward Proulx.

In the manufacture of Furniture, Chairs and Bedsteads, Holgate, Oliver & Annable are doing a large business; their factory is on Chaudière Island; they employ a large number of hands, and turn out manufactured articles to the value of ten thousand dollars per annum. Angus & Angus, Rideau street, turn out a large quantity of work. Drenan—Geo. Seale, agent—manufactures first-class furniture of every description; the warehouse is on Rideau street, near Sapper's Bridge. A. Swalwell employs seven or eight hands manufacturing cabinet ware, &c.

In Sash, Doors and Blinds, the principal factories are Peck and Gallup's, on Chaudière Island, where twelve hands are employed, and fifteen thousand dollars' worth turned out during the year. J. M. Currier & Co. employ about thirty men, and turn out a large amount of work: and P. Power & Son, who employ twenty men.

The Wood Turning Establishment of George Newell is on the Chaudière Island, and turns out three thousand five hundred dollars' worth of chair and bedstead stuff. That of Smith's, on Cumberland street, employs two or three hands.

Ottawa is well supplied with Flouring Mills, having the following, viz.: that of the MackayEstate, at the Rideau Falls, or New Edinburgh, and that of Thos. Mackay at the Chaudière Falls, who is very extensively engaged in the manufacture of flour, as well as that of oatmeal. James

Wilkinson, at Thompson's Mills, is doing an excellent business in gristing and flouring. The Ottawa Mills, carried on by William Morrison, is one of the oldest mills in Ottawa, and still enjoys a large gristing business; it has the capacity of grinding two hundred bushels per day. Henry McCormick, baker and miller, does a large baking business, and grinds about seventy thousand bushels of wheat per annum.

Rochester's Tannery is the largest in this section of the country; from twenty-five to thirty men are kept in constant employment, and the establishment turns out about sixty thousand dollars' worth of leather during the year. That of James McCullough, established in 1860, employs six men, and turns out about five thousand dollars' worth per annum. Richard Woodland employs seven to eight hands. His tannery is on St. Paul, near Mosgrove street.

Ottawa has three Breweries, viz.: the Victoria Brewery, established 1829, by John Rochester, sen., and James Rochester, now conducted by John Rochester, jun.; seven hands are here employed in the brewing of ale and porter. The other two are carried on by Mr. Sterling, foot of Rideau Locks, and John W. Diamond, St. Paul street.

Charles Garth is carrying on a very extensive business in gas and steam fitting, brass founding, &c. The contract for putting in the heating apparatus and gas fixtures in the Parliament buildings was given to Mr. Garth. The whole of the work, about completed, reflects credit upon this Ottawa establishment.

In Blank Book manufacturing and Bookbinding Ottawa is well supplied—the following first-class establishments do an extensive and very superior trade: James Hope & Co., corner of Sparks and Elgin streets; G. E. Desbarats, Desbarats' Buildings, corner of Sparks and O'Connor streets; Alex. Mortimer, corner of Sparks and Metcalfe streets; and Hunter, Rose & Co., Sally street, opposite Wellington market.

Messrs. Nordhemier & Co. have lately established an agency for all kinds of music and musical instruments, under the management of J. L. Orme & Son.

Brass Foundries—Chas. Garth and Theodore Friedrick both do a large business.

Tin-Ware Manufacturing—In this branch of trade there are many engaged, but the largest and principal establishments are those of Messrs. Esmonde Bros, Sparks street; W. H. Meadows & Co., Sussex street, and Chas. Garth, Rideau street. These firms also deal extensively in Stoves and House furnishing goods of every description.

Marble Works—W. J. & A. K. Mills, Sparks Street; Wm. Macfarlane, Rideau Street; and Painter & Taylor, south side of City Hall Square, are the only establishments in Ottawa in this branch of business.

Brush and Broom manufacturers, W. & R. Reardon carry on this trade on William street.

Ring, Jas., postmaster, carpenter, builder and cooper.

RICHMOND.—An incorporated village situated on the Goodwood river, in the east corner of the township of Goulbourne, 21 miles from Ottawa City, and 11 miles from the Ottawa river. The village was laid out for the Government in 1817 by Colonel Fortune, and settlement commenced as early as 1818. This was a military point for a number of years. The Duke of Richmond, then Governor General of Canada, died here in 1819 from the bite of a pet fox, in a frame barn on Chapman's farm, about 2½ miles from the village, on the Goodwood river. The village derives its name from the Duke of Richmond. For a number of years the trade and business was very active, but latterly appears to have declined. It contains, however, several well-filled general stores, flouring mills and tannery; a grammar school, building of frame, W. Houghton, master. Four churches—Church of England, built of stone, Rev. C. B. Pettit, rector; Established Church of Scotland, building of frame, Rev. Wm. P. White, minister; Wesleyan Methodist, building of frame; and the Roman Catholic church, built of stone, Rev. Peter O'Connell, parish priest. Mails daily. Population, 600.

THE OTTAWA CITIZEN

IS PUBLISHED DAILY AND WEEKLY AT OTTAWA.

No expense is spared by the Proprietor in obtaining early and reliable news. In this respect *THE OTTAWA CITIZEN* has always been far ahead of its contemporaries. It has correspondents in all the principal cities in Canada, and the Telegraph is freely used for the transmission of all items of Political, Commercial and General interest. Its Editorials are the productions of able literary men, and its Reports are furnished by first-class Short-Hand Writers. It is the oldest established and most extensively circulated newspaper in the Ottawa district, and has consequently the best claims to advertising patronage.

JOB PRINTING.

Particular attention is paid to this Department, which is stocked with all the most approved modern types of the day. All kinds of work—such as LARGE and SMALL POSTERS, MUNICIPAL and CORPORATE BLANKS, CARDS, CIRCULARS, &c,—is done with great taste, and at very reasonable rates. Particular attention is paid to orders from the country.

RATES OF ADVERTISING.

All advertisements are charged for the first insertion in the Daily paper at the rate of EIGHT CENTS a line, and in the Weekly, TEN CENTS a line, measured by solid minion space, and for each subsequent insertion in the Daily, TWO CENTS a line, and in the Weekly, FOUR CENTS a line. No deviation is made from these rates for mere casual advertising, but a liberal discount will be allowed to those taking a given space for a length of time, or advertising by the year, half-year or quarter.

Professional and business cards, simply setting forth the name, address, and occupation of the Advertiser, $8 a-year.
